

FOR IMMEDIATE RELEASE

Roja Records announces the release of House Sampler exclusively on BEATPORT until July 20, 2010, featuring Juicy Music artist Tony Puccio and industry up-comers Matt Funk and dj Rigi

Tech, Funk, Dark and Edgy with a hint of Progressive sums up the House Sampler four track EP from Roja Records.

Tampa, Florida – July 8, 2010 – On July 20th, 2010, **Roja Records** is set to release '**House Sampler**', a four track EP featuring **Juicy Music** and **Open Bar Music** artist Tony Puccio and industry up-comers Matt Funk and dj Rigi.

She Devil by **Tony Puccio** is an alluring blend of Tech House and Tribal, infused with a slight hint of Electro, but not too much. Again, Tony Puccio demonstrates his superb ability to “embrace change” in a quickly evolving market by weaving together multiple influences into a fusion of perfection. She Devil is a peak hour ringer!

Sativa and **Predict** by **Matt Funk** are both fun tracks with interesting twists and turns from tech house into progressive melody lines that will mentally replay for days. Matt Funk has crafted songs that lift the soul while keeping everyone grounded by a firm bass line, which fits perfectly into any Tech House or Progressive set.

Dark by **dj Rigi** is an artfully arranged track that is just oozing with influences of the Portuguese and Spanish underground sounds and a uniquely Progressive take with the melodic hook. The Latin influenced rhythm paired with a Progressive melody is a unique combination and unusual treat for the ears.

Roja Records House Sampler pre-release featuring Tony Puccio, Matt Funk and dj Rigi is available exclusively at www.BEATPORT.com.
